To Whom It May Concern:

It is with great pleasure that I write this letter of recommendation for Roy Penner, Architect. Our organization has worked with Roy for well over two years towards developing an Early Childhood Learning Campus that is an on-going project. Most recently, we engaged his services to renovate space in a former school building for use as a child care center.

During renovations, Roy worked diligently towards meeting tight timelines and consistently monitored progress at the site. In spite of frustrating delays, he has remained deeply committed to our longer-term project, which requires that Roy work with many individuals from educators to parents to assorted non-profit administrators. He is to be commended for his patience and tact as well as for his ability to translate programming concepts into functional, appealing designs.

It has been our good fortune to work with someone possessing such outstanding professional and personal qualities. Therefore, I highly recommend Roy Penner without hesitation. For additional information, please feel free to contact me at 412-331-6756.

Sincerely,

LOCAL INTERACTIVE NETWORK FOR CHILDREN & FAMILIES

Amy Ernharth, Director
